

“The Shake Up”

**Those On The Inside Will Get Out... And
Those On The Outside Will Remain Stuck
Inside Their 9-5 Hell...**

Introduction

Welcome to my special report... a report that I call "*The Shake Up*"... and it's called this for a number of different reasons... but mainly this one:

Whether you're an experienced marketer, a beginner with a website, a novice affiliate marketer or a complete "newbie" (a term which I hate more than anything and I'll explain why in a moment)... then you NEED to read this report...

This report will show you why you're NOT making enough money online... and why you're working WAY too hard...

It really is simple to set-up your very first "income stream" and then automate it to between 90% - 100%... so that you can focus on setting up more!!

I will change your thinking about this – literally overnight!

Just as I did... when I first saw Internet Marketing around 3 years ago now... when I was a total of \$86,000 in personal debt, stuck in a day job that I hated, desperate to get out... and VERY confused about how I should do it...

This is what I discovered – and the faster you imprint this on your mind, the faster you will succeed and GET OUT:

- Why you're now sitting on the other side of the fence – no longer a consumer but a SELLER. This will be the LAST product package that you EVER purchase...
- **How to get other people to do your work for you!**
- The problems that most newbie marketers face and why they won't be problems for YOU...

But there's that term again – "Newbie" marketer! Let me tell you why I hate this so much...

Well, it's because I was once one of them. In fact, everyone that makes money through Online Marketing was once a "newbie"... but I bet they never called themselves one!!

A newbie is a complete beginner, yet the newbies are the largest target market, certainly for the phrase "Internet Marketing" anyway... which just doesn't add up... does it?

You see, it's simple...

Newbie sees product package he/she likes; buys product package; implements techniques and is no longer a newbie?! The newbie target market should therefore be shrinking shouldn't it – not growing?!

So, why is this NOT the case you ask?

Well, it's because MOST Internet Marketing "gurus" are providing techniques, systems, plans and "businesses in a box" they DON'T use themselves!! They sound great in theory, get the buyer all excited... and then BANG... it doesn't work... back to square one... and yes, you guessed it... they remain a NEWBIE because they didn't quite get it to work!!

Do you see where I'm coming from? In an ideal world, you should remain a newbie for JUST a matter of days...

You see/search for ways in which to make more money; discover the power of internet marketing; find someone that you can relate to and/or a technique that sounds good; you buy the information; you implement the technique and the money starts flowing your way...

BUT, in reality it's not exactly like this... and I should know! I've been where you've been. I've started from scratch and failed, failed, failed and then failed again! Until I worked out why... and what "The Shake Up" is all about is the all-too-common "alright in theory" products and techniques that are around at the moment...

What we want are techniques that WORK for the Average Joe... for you... for me... and OUR network.

We're going to shake the tree as hard as we possibly can, so that only the strongest, proven, life-changing techniques, gurus and systems remain... so that WE can ALL profit... Whether you're just starting, or even if you've already made your first million!!

The Latest Techniques

What we've built here is an elite network with the same goal – to make easy money!

Not to create a job for ourselves, not to spend 3 weeks working on something that then doesn't work. NO! We've spent our time wisely, setting up new systems, techniques, "income streams" and automated machines that do the work for us...

(If you're in the office for more than 2 hours a day then you're doing it ALL WRONG! I've done it in the past... and a simple change in the way that you think will fix this for you!)

And through this network I will keep you updated on the latest techniques that WORK – we will personally test them and make money from the technique... so I can assure you that you won't be seeing just the theory!!

And no matter who you are, this is going to be of interest to YOU... for one simple reason... Have you ever asked someone... even a complete stranger... the following question:

“Would you like to make more money?”

Those that desperately need to make money will say “yes”... and those already making money will ALWAYS want to make more!!

And this is what “The Shake Up” is all about... getting you started fast and showing you ONLY the techniques and methods that WILL solve the common problems with Internet Marketing...

Solving The Common Problems

If, like me, you've experienced the following problems... don't panic... they can be overcome:

- **Getting the right information – do what they do, not what they tell you to do!!**
- Your choice of market and why it's crucial to YOUR success – even if you choose a super-competitive market!!
- **Domain names, ftp, website hosting (with help and support) – the only way to start...**
- Sourcing products and why this will NEVER be a problem for you again...
- **Creating or editing sales letters to make them work!**
- Getting people to see your website – the single-most frustrating aspect of Internet Marketing...
- **Tracking and improving conversions - knowing how good your sales letter is gives you a MASSIVE advantage over the rest...**

And how do I know about these problems? Well, it's because, quite simply, I've experienced them ALL – personally! I have also experienced them with my Joint Venture partners... and I have solved them as well...

And now, I have documented EVERYTHING so that you can copy what I do... and how I do it. BUT, I'm NOT going to leave you there... like you may have been left in the past!

No Way!

But wait... Here's the best part...

Not only will I provide you with the methods to actually generate visitors to your website, but I will also personally help you to achieve this... be it via SEO, AdWords or BLASTS to my lists...

You see, it's in my interest to help you succeed! Because the more money I can make for you, the more money I can make in the future when we Joint Venture together...

This is truly a win-win situation... BUT... in order to start you need the right information... and I'll provide you with this as well...

Hasn't This ALL Been Done Before?!

No, it hasn't, and that's why I'm so excited right now... Once the industry has seen what I'm offering, they'll be forced to raise their game to new heights, or face being left behind.
